13 OUR COLLABORATORS & KNOWLEDGE PARTNERS

TU is one of the largest “Technische Universitäten” in Germany and one of Germany’s leading and most dynamic universities.

As a full-curriculum university with 17 faculties in five schools. It offers a wide variety of 124 disciplines and covers a broad research spectrum. Since 2012 TUD has been one of the “Universities of Excellence.” About 32,000 students are enrolled at TUD. About 8,300 employees from 70 countries are working at the Technische Universität Dresden.

O.P. Jindal Global University (JGU) is a non-profit, multi-disciplinary and research oriented university founded in 2009. With over 11,000 students and 1100+ full time faculty members, studying and living on a fully residential campus, JGU’s twelve schools focus on Law, Business & Management, International Affairs, Public Policy, Liberal Arts & Humanities, Journalism, Art & Architecture, Banking & Finance, Environment & Sustainability, Psychology & Counselling, Languages & Literature and Public Health & Human Development.

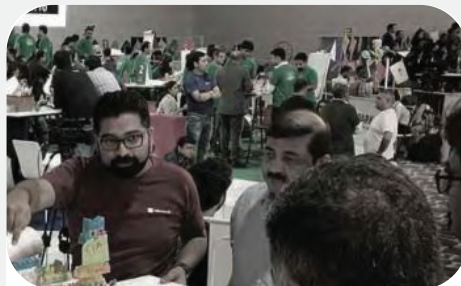

BEAS Technology

It is one of the leading industries in Germany in the field of industry 4.0, future factory solutions, Internet of Things and robotics. They work extensively in human-machine interactions to develop state of the art industry solutions.

The Co-MAP project addresses this by focusing on vulnerable youth, supporting educators, parents, and leaders in adapting to new challenges. It follows a social justice theory, targeting 10-18-year-olds, parents, and teachers, recognizing education's complexity.

Co-MAP seeks to enhance global education, promoting sustainability and scalability beyond its consortium.

QGLUE is one of the leading companies helping global organizations adopt design and innovation to create a positive impact at scale. QGLUE brings the power of Design Thinking, enabling people to develop a problem-solving mindset for any business challenges and empowering them to build a culture of innovation.

The Third Way—a dynamic hub committed to advancing knowledge and appreciation of social enterprise.

Our cutting-edge learning programs are tailored for accessibility, available in digital formats like Massive Open Online Courses (MOOCs) and Open and Distance Learning (ODL) through a Virtual Learning Environment (VLE).
